

38th ANNUAL REPORT

2021-22

**Indian Micro Fertilizers Manufacturers
Association (IMMA)**

Bringing all round improvement, friendship and unity amongst the
manufacturers of micronutrients across India, since over 38th years

About IMMA

The Indian Micro-Fertilizers Manufacturers Association (IMMA) was established in 1983 to represent the interests of the micronutrient manufacturers throughout the country. Our members have been working with the farming communities for almost 50 years and have played a vital role in making balanced plant nutrition a national imperative. IMMA has three major focus areas of work: **Policy Advocacy** with Government, **Knowledge and Skills Training** of staff and stakeholders across India, as well as developing unity and **Fellowship** amongst members. **IMMA is a statutory body under Section 38(5) of the FCO 1985, and has been a member of all State Fertilizer Committees over the past decades.**

Policy Advocacy

IMMA continuously interacts with concerned Ministers, Agricultural Commissioner & policy makers at the Central and State Governments.

IMMA strives to share best practices amongst members, by bringing together top scientists and researchers for expert technical sessions, visits to best-in-class labs to standardize analytical methods and publishing latest research papers in the periodical IMMA Bulletins

Indian Micro Fertilizers Manufacturers Association (IMMA) Objectives

1. To bring all round improvement, friendship and unity amongst the manufacturers of micronutrients.
2. To make efforts for the welfare of related institutions, farmers dealers etc. and to unite them to safeguard the interest of common nature so as to bring all round prosperity.
3. To improve technical knowledge of the members.
4. To arrange through the Association, for a healthy dialogue between various institutions as and when necessary.
5. To arrange aid and services for those connected with agriculture and are victims of natural or accidental calamities.
6. To hold agricultural seminars, Exhibitions, Demonstrations, etc.
7. To educate, guide and advice on various Acts like Fertiliser Control Order, Packing Act, Essential Commodity Act, etc.
8. To bring about the understanding between Government manufacturers and consumers for the progress of all.
9. To create consciousness amongst the public and to disseminate and help in dissemination of latest techniques.
10. To frame policy for the members of the Association, regarding their welfare.
11. To keep the dealers informed from time to time about Acts, Rules, Policies, Experiments, Research, Plans, etc. about their trade.
12. To help to solve the disputes, differences of opinion etc. between the Members of Association.
13. To undertake any other activity necessary in the interest of the Association, as may be deemed.
